

Registration is open for two NEW RSIS Projects in Sri Lanka

We are excited to launch registration of two exciting new RSIS Projects in December 2018.

RSIS Big Build Sri Lanka

Date: 9th – 22nd December 2018

Participation fee: **£1020** plus flights

Under the banner of "The Round Square Big Build", in December 2018 a team of Round Square Students and Adults will be working with a local community near Wasgamuwa in Sri Lanka.

This construction project will consist of building facilities for the local community, which will be used to educate them about elephant behaviour as well as for funeral services and festivities. They may also be involved in the re-construction of homes damaged by elephant herds.

RSIS Environmental Project Sri Lanka

Date: 9th – 22nd December 2018

Participation fee: **£1020** plus flights

The first of its kind, this RSIS Environmental Project will take place in December 2018 and will see a team of 10 Round Square Students and Adults working with a local community near Wasgamuwa in Sri Lanka.

This environmental project will contribute towards Project Orange, an award winning conservation programme that uses citrus crops to divert elephant herds on their migration, protecting the elephants and farmers, whilst creating an alternative cash crop.
